Hi Peter – Thanks for the notification. We researched this discrepancy and found that this folder was inadvertently left out of the final CD. We are adding it in now and will send replacement CDs out to each of the Agencies. I apologize for the error.

Chris

Subject: [EXTERNAL] Final Area 40 HHRA/ERA Discrepancy

Hi Chris,

I had HERO staff review the above mentioned document to verify that RTCs were adequately incorporated into the Final Report. Our HERO ERA noticed the following discrepancy:

The Final HHERA's version of Appendix B indicates "See Attached Folder" but there isn't anything attached in either the electronic version or the hard copy. There were some dioxin-related data in that appendix that I had wanted to look at (in the Draft version), but the material still seems to be missing. It's not critical at all, it won't change any conclusions, and I don't have to see it, but it seems that the document isn't quite a complete package.

Can you provide the necessary attachments in electronic & hard copy form to complete the report? Please advise.

Peter MacNicholl, P.E.
